

## Our Grants Support K-12 Public Education & Community Programs in Northern New Mexico

The LANL Foundation is inspired by and thankful for all of the important work our schools, nonprofits, and community programs do for Northern New Mexico. We are happy to be able to support those efforts and partnerships through the Education and Community Small Grants program.

Grant applications are accepted during two annual funding cycles with deadlines of **February 15** and **September 15** in 2019.

There are two types of grants for which your school, organization, or project may be eligible. Each grant is a **maximum award amount of \$2,500**.

Award notification and funding are received within one month of each deadline. Grantees have a full year to spend the grant money and submit the required final report.

### REQUIREMENTS:

**Education Outreach Grants** directly support public school children in grades K-12.

**Community Outreach Grants** meet our mission and vision of innovative programming, collaboration, and advocacy for lifelong learning but are not required to solely support K-12 public education. Early Childhood, adult learning, basic needs initiatives, or community events are a few areas that fall under this category.

**Grants in both categories** must serve one or more of the seven Northern New Mexico counties of Los Alamos, Mora, Rio Arriba, San Miguel, Sandoval, Santa Fe, or Taos.
